Expectations:

- Full use of arena is encouraged as long as the equine is guided by the rider and not the wall.
- There will be a penalty for failure to remain a minimum of 20ft from end of arena when approaching a stop or rollback. Unless it is a direct result of a longer than expected and correct stop.
- Spins shall be balanced on hindquarters and remain in fixed location. Equine is not required to keep a singular pivot foot throughout the maneuver.
- During spins, over or under rotations greater than 90° will result in a "0" for that maneuver. Under or over rotations less than or equal to 90° will be scored based on the quality of the spin.
- Rollback: The rollback begins after the horse is stopped. Once motion for rollback has started there must be no hesitation through the lope transition. Lope out of rollback may be on either lead, but horse must be on correct lead prior to corner (with no break in stride) if continuing around end.
- Any off course movements within an element will result in a score of "0" for the entire element.
- Flying lead changes are required and should be attempted. Horses attempting flying changes and not completing will be scored accordingly. Horses not attempting a flying change and performing other changes will be given a score of "0" for that element.
- Sliding stop: Stops are the act of slowing the horse from a lope to a stop position by bringing the hind legs under the horse in a locked position sliding on the hind feet. The horse should enter the stop position by bending the back, bringing the hind legs further under the body while maintaining forward motion and ground contact and cadence with front legs. Throughout the stop, the horse should continue in a straight line while maintaining ground contact with the hind feet.
- Markers will be placed on the wall or fence of the arena at the center of the arena AND at least 50' from each end wall.

Equipment needed: 6 cones**Pattern will take 5-7 minutes.**
